property nudge

Landlord certificate checklist 2026

Key dates and renewals for each rented property in England. Fill in your own dates and keep it with your certificates.

	What	How often and key rules	My dates
☐	**Gas safety check** (if there is gas), by a Gas Safe registered engineer	Every 12 months. You can have it done up to 2 months early and keep the same due date. Keep the old record too. Copy to existing tenants within 28 days, new tenants before they move in.	
☐	**Electrical safety report (EICR)**, by a qualified person	At least every 5 years, or sooner if the report says so. Copy to existing tenants within 28 days, new tenants before they move in. Any remedial work within 28 days.	
☐	**Energy Performance Certificate (EPC)**	Valid for 10 years. Must be E or above to let. Government plans C for all tenancies by 1 October 2030. A C rating before 1 October 2029 counts until that EPC expires.	
☐	**Smoke and carbon monoxide alarms**	Check each one works on the day each new tenancy begins.	
☐	**Right to Rent check**, every adult tenant	Before each new tenancy starts. If their right to stay is time limited, check in the 28 days before the start.	
☐	**Tenancy deposit**	Protect in a government approved scheme within 30 days of receiving it.	
☐	**Legionella**	Assess the risk. For most homes it is a simple check. No test certificate is needed. Review it when anything changes.	

Property address

Want a reminder before each date instead? Property Nudge emails you ahead of every renewal, chases the new certificate and keeps you up to date on changes in the rules. £15 per property per month, 30 days' notice. propertynudge.uk
